

SERTOMA *and* YOU

Together, we make a difference!

mission

To improve the quality of life today for those at risk or impacted by hearing loss through education and support.

vision

To create communities of change under common leadership and with a common voice that will serve the many in need.

purpose

To meet the needs of communities through volunteer service.

Why Hearing Health?

According to the World Health Organization, over 466 million people worldwide have disabling hearing loss. This staggering statistic also includes one million children. Hearing loss, if left untreated, can limit an individual's professional advancement and isolate them from loved ones and their community.

Hearing loss affects a person's quality of life and potentially their safety. This is why we need YOU to become an ally, advocate and educator. When you join Sertoma, you become part of a family that works to improve the lives of those in need. Together, we can create a healthier hearing world.
